Home » Sandstones » Lalitpur Yellow

Lalitpur Yellow

This Sandstone is also called as L Yellow Sandstone or Sun Yellow and is used especially in exterior cladding in sea shore buildings due to acid & thermal resistant properties. The saline winds have negligible effect on Lalitpur Yellow stone(Lalitpur sandstone). Also due to a very subtle color it finds extensive popularity in the European region for large landscaping projects as well.

The material is frost resistant and the color has little variation from Yellow to light Brown color. On request we can pack the material with foam around the crates so that the stone does not touch the crates.

The stone can be natural, sawn, sandblasted, brushed, honed and polished as per usage requirement. Available in tiles, slabs, cobbles and blocks, we offer LP Yellow Sandstone in varieties to create an interesting interiors or exteriors. The material we use comes from the area of Basoda Village in Madhya Pradesh.

General Properties

Classification	- Sand Stone
Quarry Deposit	- Compact
Quarry Excavation	- Block
Chisel Splitting	- Possible
Gang Saw Sawing	- Possible
Offered in	- Cobbles, Steps, Palisades, Wall Bricks, Block, Slabs and Tiles
