Buff Brown

This sandstone has quartz grains cemented together by secondary silica & calcite. Due to the presence of Quartz in it this is also known as Quartzitic Sandstones. Due to natural brown buff color it find extensive popularity in paving and most town planners in Europe find this sandstone most useful in their old city revamping projects. The natural cleft surface also due to strong physical and chemical composition of the stone is also very smooth and riven. It is extensively used in making Huge Landscaping projects, window cills, lintels, kerbs and so on. It also finds huge popularity for being used as wall cladding, roofing and various other interior applications.

The stone can be natural, sawn, sandblasted, brushed, honed and polished as per usage requirement. Available in tiles and cobbles, we offer Buff Brown Sandstone in varieties to create an interesting interiors or exteriors. The material we use comes from the area of Dabi and Paneri Village, Bhilwara in Rajasthan.
