Desert Yellow Brown

Warm and impressive, coarse grained Desert Yellow Brown sandstone has natural buff brown color. The finer streaks of dark brown color on these natural stones lend a distinguished look and make them perfect for interiors, exteriors and landscaping. Along with the aesthetics, its natural properties such as high resistance to weather conditions, riven texture, non-slip surface etc., make the Desert Yellow Brown sandstone suitable for pathways, patios, pavements, window sills, lintels, kerbs, swimming pools etc. The stone is extensively popular in the Europe for large landscaping projects and is also preferred for exterior cladding in sea shore buildings.

The stone can be natural, sawn, sandblasted, brushed, honed and polished as per usage requirement. Available in tiles, slabs, cobbles and blocks, we offer Desert Yellow Brown Sandstone in varieties to create an interesting interiors or exteriors. The material we use comes from the area of Rajpura Village in Rajasthan.

General Properties

Classification	- Sand Stone
Quarry Deposit	- Compact
Quarry Excavation	- Block
