Kandla Grey

This sandstone also known as Focus or Budhpura Grey has quartz grains cemented together by secondary silica & calcite. Due to the presence of Quartz in it this is also known as Quartzitic Sandstones. Due to natural bluish Grey color it find extensive popularity in paving and most town planners in Europe, specifically Belgium and UK, find this sandstone most useful in their old city revamping projects. The natural cleft surface also due to strong physical and chemical composition of the stone is also very smooth and riven. It is extensively used in making Huge Landscaping projects, window cills, lintels, kerbs and so on. It also finds huge popularity for being used as wall cladding and various other interior and exterior landscaping applications.

This material is Frost resistant and the color is fairly constant. We try to use material from quarries where the stone does not turn brown after application.

The stone can be natural, sawn, sandblasted, brushed, honed and polished as per usage requirement. Available in tiles, slabs, cobbles and blocks, we offer Kandla Grey Sandstone in varieties to create an interesting interiors or exteriors. The material we use comes from the area of Budhpura Village in Rajasthan.

General Properties

Classification	- Sand Stone
Quarry Deposit	- Compact
Quarry Excavation	- Block
Chisel Splitting	- Possible
Gang Saw Sawing	- Possible
Offered in	- Cobbles, Steps, Palisades, Wall Bricks, Block, Slabs and Tiles
Finishes Offered	- Natural, Sawn, Sandblasted, Honed, Polished, Brushed, Bushhammered, Vibrated, Tumbled
