## Lalitpur Grey

This Sandstone is also called as LP Grey Sandstone and is used especially in exterior cladding in sea shore buildings due to acid & thermal resistant properties.

Also due to a very uniform and subtle color it finds extensive popularity in the European region for large landscaping projects as well.

The material is frost resistant and the color is fairly consistent.

The stone can be natural, sawn, sandblasted, brushed, honed and polished as per usage requirement. Available in tiles, slabs, cobbles and blocks, we offer LP Yellow Sandstone in varieties to create an interesting interiors or exteriors. The material we use comes from the area of Madhya Pradesh.
