Raveena

This sandstone also known as Krishna Sandstone or Magic Purple has quartz grains & due to the presence of Quartz in it this is also known as Quartzitic Sandstones. Due to natural color variation from White to purple to red-orange lines it find extensive popularity in paving for residential use and most town planners in Europe find this sandstone most useful in their old city revamping projects. The natural cleft surface also due to strong physical and chemical composition of the stone is also very smooth and riven. It is extensively used in making Huge Landscaping projects, window cills, lintels, kerbs and so on. It also finds huge popularity for being used as wall cladding, roofing and various other interior applications.

This material is Frost resistant and the color has a lot of variation in it. We try to use material from quarries where the stone does not have a very strong purple color on the surface.

The stone can be natural, sawn, sandblasted, brushed, honed and polished as per usage requirement. Available in tiles, slabs, cobbles, wall bricks and blocks, we offer Ravina Sandstone in varieties to create an interesting interiors or exteriors. The material we use comes from the area of Govind pura and Coki Village, Bhilwara District in Rajasthan.
